## SENTINEL

### STANDARD

- ECE / D.O.T. approved

### CONSTRUCTION

- Durable and lightweight polycarbonate blend shell. Dual density EPS liner – two layers of EPS, one softer one slightly harder, combine to provide a more progressive impact absorption for different levels of impact.
- 2 shell sizes

### VISION

- Optically superior clear face shield with anti-fog coating and durable hard coating for scratch resistance.
- Tinted drop down inner sun shield. 100% UVA/B protection up to 400 nanometers.
- Shield lock provides piece of mind, shield will remain closed in all conditions.
- Easy shield changes – quick, secure and tool – less removal and installation

### COMFORT / LINER

- Qwick - Dry® comfort liner and cheeks pads.
- Hydrophilic liner absorbs sweat and is perforated to provide plenty of ventilation.
- Removable and washable interior.
- Removable chin curtain

### VENTILATION

- High-Flow ventilation system.
- 6 adjustable intake vents. 5 exhaust vents.
- Removable air guide – helps direct airflow upwards across the shield for fog free vision

### INCLUDED

- Soft fleece helmet bag

### ACCESSORIES

- Optional tinted shields available

TREKKER

STANDARD

- ECE/DOT approved

CONSTRUCTION

- Durable and lightweight polymer shell
- Dual-density EPS (Expanded Polystyrene) liner
- Two shell sizes

VISION

- Optically superior clear face shield with a durable hard coating for scratch resistance
- 100% UVA/B protection up to 400 nanometers

SHIELD LOCK

- Visor and shield integration places the shield out of the line-of-sight in the raised position
- Shield is designed to accommodate goggles and goggle straps when in the closed position
- Easy shield changes: quick, secure and tool-less removal and installation

COMFORT / LINER

- Removable and washable interior Quick-Dry® comfort liner and cheeks pads
- Hydrophilic liner absorbs sweat and is perforated to provide plenty of ventilation

VENTILATION

- All FLY helmets have TFV (True Functional Ventilation). When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents

INCLUDED ACCESSORIES

- Highly visible 3M reflective stickers for increased visibility
- Side-plate covers included for street helmet configuration with the visor removed
- Soft fleece helmet bag

FF-98

The New FF-98 features GMAX's New quick release face shield mechanism with shield lock and our integrated LED rear light. The ECE rating gives you the assurance that this helmet has been certified by the leader in "world standard" safety equipment testing.

• ECE / DOT Approved

- SpaSoft DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly. Charcoal bamboo fiber keeps odor away by eliminating bacterial growth
- Removable, adjustable and washable SpaSoft Coolmax® interior allows for easy cleaning and custom fitting
- New tool-less and quick release face shield mechanism
- Eight intake and exhaust vents
- Integrated multi-function red LED rear light included. **(Optional wireless brake light kit available P/N 72-3781)**
- Lightweight Poly Alloy shell. Large size is only 3.5lbs
- Drop down sun shield with anti-fog coating
- UV400 coated shields with 100% UV protection
- Shield lock
- Breath deflector and chin curtain included
- Built in speaker pockets
- Intercom compatible

FF-88

From the outset, the FF-88 was designed for the performance enthusiast. With its aerodynamic shape, SpaSoft Coolmax® interior, and lightweight shell, GMAX gives you the perfect helmet for taking on your favorite back road. The ECE rating gives you the assurance that this helmet has been certified by the leader in “world standard” safety equipment testing.

- ECE / DOT Approved
- SpaSoft DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly. Charcoal bamboo fiber keeps odors away by eliminating bacterial growth
- Removable, adjustable and washable Spa Soft Coolmax® interior allows for easy cleaning and custom fitting
- GMAX D.E.V.S (dual exhaust venting system) top and rear vents reduce temperature by allowing hot air to escape from the top of the helmet
- Low profile intake and exhaust vents
- Vents securely close to completely seal out the cold
- Lightweight Poly Alloy shell. Large size is only 3.3lbs.
- UV400 100% protection from the anti-scratch, hard coated face shield for a longer lasting clear view
- Breath deflector and chin curtain included
- Intercom Compatible

# GM-49Y YOUTH

Kids know riding is fun and GMAX makes it even more fun with the GM-49Y. With the availability of three interchangeable interior sizes, the helmet can be custom fit to make the child safe and comfortable. Parents will be happy knowing that their little one is protected in a light weight, DOT approved helmet that they will love wearing.

D

A

- DOT Approved
- One shell can be adjusted to three different sizes so the helmet can grow as your child grows
- Removable, adjustable interior and cheek pads allow for custom fitting and easy cleaning
- Snap-in removable chin curtain
- Intake and Exhaust vents aligned with superior channeling to maintain a constant airflow to help pull in fresh air and remove hot air
- Quick change "Maximum Seal" shields available in single and anti-fog dual lens
- Large eyepoint for improved range of vision
- Lightweight Poly Alloy shell - less than 3 pounds
- Intercom Compatible

STREET HELMETS

**GM-38**

The GM-38 proves that quality doesn't have to break the bank. With standard features like a quick change shield, snap in chin curtain, and GMAX's D.E.V.S. anti-fog system, the GM-38 is the best bang for your buck in the GMAX line.

- **DOT Approved**
- Large eyeport opening for greater visibility
- Optional outer flip tint sun lens
- Quick change shield
- GMAX reduced noise design; specially designed cheek pads, neck curtain, optimal shield sealing and deluxe venting reduce unwanted noise
- D.E.V.S. GMAX anti-fog system, "Dual Exhaust Venting System" side intake and exhaust vents draw heat and moisture away from the shield area out of the helmet
- Adjustable chin vents direct air upwards across the inside of the shield to help reduce fogging
- Deluxe ear pockets for better fit and speaker installation
- Intercom Compatible

GM-11

This GMAX dual sport helmet is truly an all purpose helmet. The GM-11 is just as comfortable on your favorite fire road as it on the interstate. With the sun-blocking peak, it can be a commuters best friend as well. The GM-11 helmet is loaded with features and designs normally found on other high priced helmets, but delivered to you at a true GMAX competitive value.

- DOT Approved
- Can be quickly converted from a visor configuration to a visor-less configuration
- Side shield plate covers come as standard equipment in the box to use when configuring to a visor-less set-up
- Outer flip shield is completely hidden under the visor, and out of line-of-sight, when in the fully raised position
- Large eye port that accepts large goggles
- Visor is designed to allow airflow to pass uninterrupted across the helmet to virtually eliminate helmet-lift at highway speeds
- Shield can be fully raised or lowered when using goggles
- Plush removable/washable Coolmax interior
- Integrated speaker pockets
- 100% UV400 protection
- Optional cold weather kit available P/N - 72-3348 (dual lens shield, breath deflector, chin curtain)

OF-77

The OF-77 features the all new SpaSoft Coolmax interior which combines the moisture wicking properties of Coolmax® with the anti-microbial properties of bamboo. The OF-77 is like having two helmets in one. It offers the comfort of an open face helmet with the ability to quickly and easily convert into a full face helmet with the installation of the optional snap-in jaw piece.

• DOT Approved

- SpaSoft DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly. Charcoal bamboo fiber keeps odors away by eliminating bacterial growth
- Removable, adjustable, washable Spa Soft Coolmax® interior allows for easy cleaning and custom fitting
- GMAX D.E.V.S (dual exhaust venting system) top and rear vents reduce temperature by allowing hot air to escape from the top of the helmet
- Vents close to completely seal out the cold
- 100% UV400 protection from the anti-scratch hard coated face shield for a longer lasting clear view
- Tinted inner sun shade with anti-fog coating
- Lightweight Poly Alloy shell. Large size only 3.2 lbs
- Speaker pockets for communication systems

GM-65

The GM-65 Full Dressed is the most feature packed half helmet on the market. From its internal sunshade to its dual density EPS, no other half helmet can compare to the GM-65's long list of standard features.

- DOT Approved
- DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly
- Removable Coolmax® interior allows for easy cleaning
- Premium venting reduces heat at the top of the head. Comfort liner, shell and EPS designed for maximum venting
- Helmet comes with two retractable, hard coated 100% UV400 resistant sun shields that are designed for a quick and tool-less removal and replacement. One clear and one dark smoke tinted
- Removable, snap in neck curtain keeps you warm during cool weather riding. Includes pockets for intercom speakers
- “Dual-density EPS technology” allows for a low profile look and fit
- Optional high definition sun shield available (Must use helmet size specific shield).

• Optional/Replacement shields available

**GM-35**

With its three snap visor, the GM35 is one of our most versatile helmets. You can choose between a traditional cruiser look with its included sun visor and neck curtain or opt for the naked look by removing both. The three snap gives you the option of installing a variety of shields and visors to suite your personal style and riding conditions.

- DOT approved
- DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly
- Adjustable forehead vent for increased ventilation
- Removable neck curtain for cold days also has pockets for intercom
- Snap on sun visor allows for a variety of shields and visors to be installed

# EXO-T1200

Combining MotoGP™ inspired technology with the demands of long-distance riders, the EXO-T1200 is an ideal solution for touring riders who demand premium features in a full-coverage helmet. Starting with an aerodynamic profile for stability at speeds, the VSV™ ventilation system is designed for maximum airflow and is the reason the T-1200 has gained a reputation as the best ventilated helmet on the market. The external shell is made of our proprietary TCT® composite fiber for strength. The interior liner features our Airfit® cheek pad inflation system for custom fit and comfort. The internal Everclear® Speedview® drop-down sun visor is convenient when riding in bright sunlight. For long distance, all day touring, the T-1200 is an excellent choice. Pinlock® Maxvision® flat shields with tear off posts are also available as an accessory for the track. **Clear face shield included, dark smoke and other face shield options are sold separately.**

- 5 Year warranty
- DOT Approved
- TCT lightweight composite shell with dual density EPS
- 3-Step Everclear® Speedview® drop down sun visor
- Everclear® No-fog face shield with vent/lock lever and Ellip-Tec™ ratchet system
- Quick release cheek pad system
- Communication speaker pockets
- VSV™ (Venturi super vent) ventilation system
- Kwikwick® III washable anti-microbial comfort liner
- Kwikfit® cheek pads accommodate eyeglasses and Airfit® inflation system

# EXO-R2000

Featuring Scorpion's TCT® composite shell construction, the lightweight EXO-R2000 was engineered with input from MotoGP™ riders, tested both on the track and the lab. This is our top of the line helmet and includes the Ellip-Tec™ ratchet system that ensures a tight seal around the face shield while the aero-tuned ventilation system enhances airflow throughout the helmet. The aerodynamic shell design minimizes high-speed buffeting, six EPS shell sizes and the Airfit® cheek pad system delivers a customizable snug fit. **The EXO-R2000 is also equipped with quick release cheek pad system and an Everclear® no-fog coated face shield. Pinlock® Maxvision® flat shields with tear off posts are also available as an accessory for the track.**

- 5 Year warranty
- **DOT/Snell Certified**
- TCT lightweight composite shell with dual density EPS
- Aero-tuned ventilation
- Everclear® No-fog face shield w/ vent/lock lever and Ellip-Tec™ ratchet system
- Quick release cheek pad system
- Kwikwick® II washable anti-microbial comfort liner
- Kwikfit® cheek pads accommodate eyeglasses and Airfit® inflation system
- **Includes a dark smoke face shield**

# EXO-R710

The Scorpion EXO-R710 combines MotoGP™ level features with a sub-\$200 price. Advanced features include the fiberglass / aramid tri-matrix shell, Ellip-Tec® ratchet system, Everclear® no-fog face shield and quick release cheek pads. This feature packed helmet is equally at home when used for daily commuting, carving in the canyons, or during closed course competitions. It's been called the world's best fiberglass helmet under \$200 for a reason. **Clear face shield included, dark smoke face shield sold separately, other shield options available. Pinlock® Maxvision® flat shields with tear off posts are also available as an accessory for the track.**

- 5 Year warranty
- **DOT/Snell Certified**
- Fiberglass/Tri-Matrix shell with dual density EPS

EXO-R420

The EXO-R420 helmet continues to set a new standard for Scorpion EXO®'s full face street helmets at a very competitive price point. An all new shell is more aerodynamic and smaller resulting in an ultra-lightweight Snell-approved helmet. The ventilation system uses a large top vent and mouth vents engineered to allow more airflow to the rider's head while maintaining low noise levels. The EXO-R420 now features our new Ellip-tec™ II face shield with a latching shield locking mechanism located in the lower center of the shield. This makes the face shield more secure and provides a tighter seal against the gasket. The face shield can easily be removed without tools. Shown with dark shield (sold separate)

- DOT/Snell Approved
- Ultra-lightweight advanced LG® polycarbonate shell
- Aero-tuned ventilation
- Ellip-tec™ II face shield w/ Everclear® no-fog coating
- Kwikwick® II washable anti-microbial comfort liner
- Kwikfit® cheek pads accommodate eyeglasses
- 3X and 4X sizes are DOT Certified only
- **COMES WITH CLEAR FACE SHIELD**

# EXO-GT3000

According to the experts the EXO-GT3000 is in a class by itself in the highly competitive fiberglass modular helmet category. It's impressive list of features starts with the shell that offers light weight combined with an extremely aerodynamic profile. Also included are features such as Scorpion EXO®'s Airfit® liner inflation system for a customizable fit, drop-down sun visor for different light conditions, and face shield. Additionally, the helmet easily accommodates most bluetooth communications systems including the new BMW systems. Easy one handed operation of the chin bar and face shield, results in ease of opening and a positive lock upon closure. From top to bottom, the EXO-GT3000 provides premium comfort, protection and function. Shown with dark shield (sold separate)

- DOT Approved
- TCT – Ultra pre-preg lightweight shell
- Aero-tuned ventilation system
- Everclear® no-fog Speedview® drop down sunvisor
- Kwikwick® III washable anti-microbial comfort liner w/ 3D contoured cheek pads
- Kwikfit® cheek pads accommodate eyeglasses and Airfit® inflation system
- **COMES WITH CLEAR FACE SHIELD**

EXO-GT920

The dynamic EXO-GT920 modular helmet benefits from an aggressively shaped aerodynamic shell made of advanced LG® polycarbonate for light weight and strength, and features a modular chin bar. It is also packed with key features that exceed the demands of discerning riders including unique drop-down sun visor for bright daylight conditions, moisture wicking management and comfort as well as great ventilation to keep you cool on hot days. Shown with dark shield (sold separate).

- DOT Approved
- Easy use flip up chin bar
- Ultra-lightweight advanced LG® polycarbonate shell
- Aero-tuned ventilation
- Kwikwick® II washable anti-microbial comfort liner
- Everclear® Speedview® drop down sun visor
- Communication system speaker pockets
- Ellip-tec™ ratchet face shield w/ Everclear® no-fog coating
- **COME WITH CLEAR FACE SHIELD**

COVERT

Meant to disrupt the norm, this radical design can be converted to work with any type of bike. We started with a half helmet and added an integrated drop-down sun visor for protection from sunlight. A rear comfort sleeve allows you to convert the helmet to a ¾ open-face and then attach the included front mask and you've got one, aggressive looking full face helmet.

- DOT Approved
- Versatile 3-in-1 road helmet
- Ultra-lightweight advanced LG® polycarbonate shell
- Aero-tuned ventilation
- Kwikwick® II washable anti-microbial comfort liner
- Everclear® Speedview® drop down sun visor

**BELFAST**

Full features are now found in a 3/4 helmet. The Belfast design pays homage to the heritage of the classic 3/4 open face helmet melded with contemporary technology such as the drop-down sun visor and Nappa leather liner. The Belfast is a perfect balance of retro style, modern comfort and state-of-the-art technology.

- DOT Approved
- Hand-laid fiberglass shell
- 3 button snaps
- Hand stitched comfort liner with premium Nappa leather accents
- Speedview® drop down sun visor

**EXO-CT220**

The EXO-CT220 is designed to offer a modern, protective, comfortable and functional product for riders that need more than a traditional open-face helmet. The versatile EXO-CT220 can be configured with a face shield for blocking head winds, or switch the shield for a sun-blocking visor for more of that wind-in-your-face feel. The face shield is specially designed to reduce turbulence inside the helmet by re-directing the air flow under the helmet instead of the interior.

- DOT Approved
- Removable peak visor
- Ultra-lightweight advanced LG® polycarbonate shell
- Aero-tuned ventilation
- Kwikwick® II washable anti-microbial comfort liner
- 3-step Everclear® Speedview® drop down sun visor
- Communication system speaker pockets
- Kwikfit® cheek pads accommodate eyeglasses
- **COMES WITH CLEAR FACE SHIELD**

INDEX

Introducing the EXO-AT950, a versatile modular adventure touring helmet. It has features and quality that you would expect to pay far more. The EXO-AT950 can be used as a full face adventure helmet with external peak visor attached, or the peak visor can be removed and you have an aerodynamic touring helmet. The no-fog Everclear® face shield can be removed and you can use the EXO-AT950 as a dirt helmet with goggles for off-road use. Our oversized eye port is extremely wide for greater peripheral vision and downward visibility, and the modular chin bar can be conveniently flipped up when you stop to get gas or ask for directions. The internal drop down sun visor and Kwikwick® II liner will keep you comfortable all day long even as lighting conditions change throughout the day. Three shell sizes made of advanced LG® polycarbonate and dual density eps, result in a helmet that is light weight, strong, and protective. Shown with dark shield (sold separate)

EXO-C110

The EXO-C110 is ScorpionEXO®'s next-generation take on the classic half helmet. Combining subtle modern lines with an advanced ventilation system it not only looks cool, but it cools the head during long rides. A dual-density eps liner that extends down to protect the lower rear skull and an improved sun visor mechanism provides premium touches while maintaining the classic half helmet look and fit. Additionally, a unique chin strap retention design prevents it from rolling forward off of your head.

- DOT Approved
- Ultra-lightweight advanced LG® polycarbonate shell
- Aero-tuned ventilation
- Kwikwick® II washable anti-microbial comfort liner
- Speedview® drop down sun visor
- Peak visor included
- Removable ear flaps have pockets for speakers / communication device

# FORMULA

with

ADAPTIVE IMPACT SYSTEM

Formula's Adaptive Impact System (AIS) was conceived with an inside-out philosophy. This high performing ecosystem of structural designs and energy mitigating materials has been fine-tuned to absorb impacts much more efficiently than traditional helmets. Every layer from the liner out to the carbon fiber shell was carefully evaluated to reduce energy transfer to your head.

**LIGHTWEIGHT** 1290 GRAMS +/-50

**ADAPTIVE IMPACT SYSTEM:**

**12K CARBON FIBER SHELL**

Produces an extremely lightweight shell with superior penetration resistance.

**CONEHEAD™ EPS TECHNOLOGY**

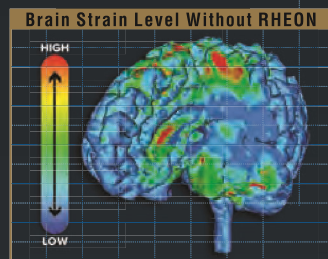

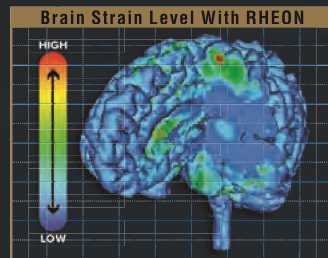

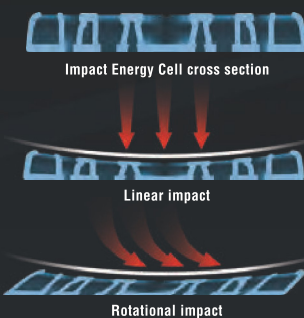

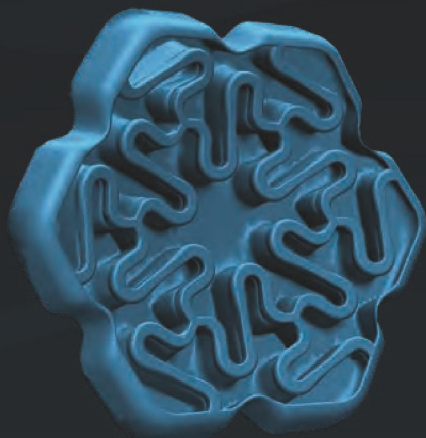

Provides a softer liner whereby the cones help manage or absorb an impact force more efficiently. Six critical zones have been fine-tuned for a progressive response to low-speed and high-speed impacts.

**EXPANDED VOLUME EPS**

Additional impact absorbing EPS has been strategically placed throughout the helmet to provide more suspension between your head and the ground.

**IMPACT ENERGY CELLS**

Made of RHEON, the Impact Energy Cells maximize absorption of low speed linear and rotational impacts, reducing forces transmitted to the brain.

Enhanced by the RHEON, the Impact Energy Cells compress and shear to maximize absorption of low speed linear and rotational impacts.

A New Helmet-Liner Design for Improved Survivability, in: IRCOBI Conference 2016 (Johnie), Malaga, International Research Council on Biomechanics of Injury (IRCOBI). Available at: www.rheonhds.com/resources

# FORMULA

with

ADAPTIVE IMPACT SYSTEM

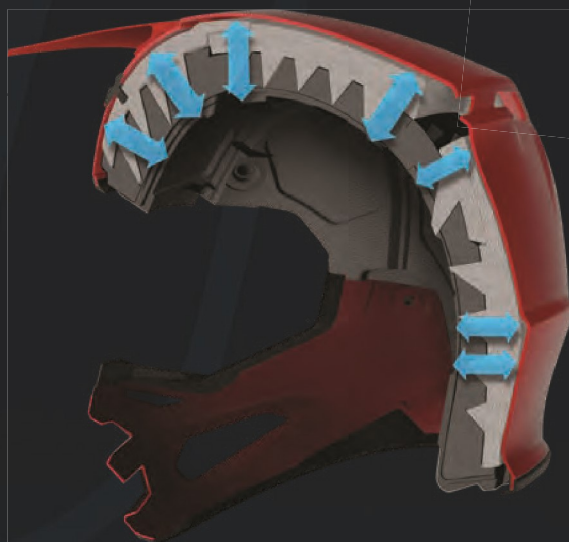

## CONEHEAD™

### CONEHEAD TECHNOLOGY

Like a crumple zone, Conehead technology absorbs and dissipates impact forces more effectively than traditional EPS helmet liners.

Through the use of cone shapes, a firm density EPS can be paired with a much lower density EPS. The result is more progressive energy absorption through a broader range of impact scenarios.

The Formula has six critical zones of Conehead EPS. Each zone has a uniquely fine-tuned combination of EPS densities to manage impacts specific to that region of the helmet. These specific multi-density EPS zones produce a much more progressive response to low-speed and high-speed impacts.

### EXPANDED VOLUME EPS

A majority of impacts occur on the forehead and side of the head. The Formula helmet has a lower density expanded volume EPS (thicker EPS) in these critical zones when compared to traditional helmets. This expanded volume EPS provides improved suspension for impacts.

### 12K CARBON FIBER SHELL

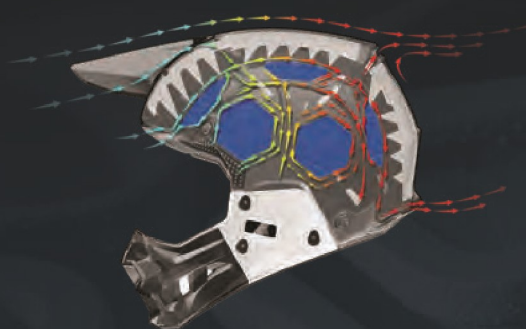

The Formula's first line of defense is an extremely strong and lightweight 12K carbon fiber shell. 12K carbon fiber refers to 12,000 carbon filaments per band (tow).

Carbon fiber is strongest when it is flat. Wider carbon fiber bands woven together produce a flatter result with less dips and rises inherent in a woven material. The reduction of these dips and rises creates less areas for resin to pool. Less resin equals less weight.

The result is an extremely lightweight shell superior to common 3K carbon fiber.

### TRUE FUNCTIONAL VENTILATION (TFV)

### FEATURING VENTURI DRIVEN AIR FLOW

All FLY helmets have True Functional Ventilation (TFV). When in motion cool air is forced through multiple air intake vents. It then passes through specifically aligned vent channels in the EPS to collect the heat inside the helmet. Finally, the heat is literally sucked out through multiple exhaust vents.

This suction is the result of a venturi effect created by the unique geometry of the helmet. The increased draw of air out of the rear of the helmet boosts air movement significantly when in motion.

**FORMULA with AIS**

**STANDARD:**

- ECE / DOT Approved

**ADAPTIVE IMPACT SYSTEM:**

- 12K carbon fiber shell - Produces an extremely lightweight shell with superior penetration resistance
- Impact Energy Cells - Made of RHEON, the Impact Energy Cells maximize absorption of low speed linear and rotational impacts, reducing forces transmitted to the brain.
- Conehead® EPS Technology - Provides a softer liner whereby the cones help manage or absorb an impact force more efficiently. Six critical zones have been fine tuned for a progressive response to low speed and high speed impacts
- Expanded volume EPS - Strategic areas of the helmet have more impact absorbing EPS, more suspension between your head and the ground

**CONSTRUCTION:**

- EPP chin bar - Expanded polypropylene creates an additional element of impact mitigation
- Clavicle shell relief zone - Creates a soft zone filled with EPS and EPP to aid in reducing clavicle injuries
- Custom molded rubber trim with integrated nose guard
- Lightweight Custom visor screws and titanium alloy D-rings

**WEIGHT:**

- 1290 grams +/-50 (size medium/large)

**COMFORT:**

- Comfort liner and quick release Cheek pads are made of a washable moisture wicking, anti-microbial material

**VENTILATION:**

- True Functional Ventilation (TFV) - When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents

**INCLUDED ACCESSORIES:**

- Premium helmet garage

**OPTIONAL ACCESSORIES:**

- Cold weather breath guard

INTEGRATED TECHNOLOGY

**WHAT IS MIPS?**

In a helmet with MIPS Brain Protection System (BPS) the shell and the liner are separated by a Low Friction Layer. When a helmet with MIPS Brain Protection System is subjected to an angled impact, the low friction layer allows the helmet to slide relative to the head. The MIPS BPS is designed to add protection in helmets against the rotational motion. The rotational motion is a combination of rotational energy (angular velocity) and rotational forces (from angular acceleration) that both affects the brain and increases the risk for minor and severe brain injuries. MIPS BPS has been scientifically proven to reduce rotational motion when implemented in a helmet by absorbing and redirecting rotational energies and forces transferred to the brain.

LOW STRAIN LEVEL HIGH

**WHAT IS ROTATIONAL MOTION?**

Rotational motion is a combination of rotational energy (angular velocity) and rotational forces (from angular acceleration). This rotational motion results in shearing and/or stretching of brain tissue which affects the brain and increases the risk for both minor and severe brain injuries.

**THE GREAT MISCONCEPTION**

Accident statistics show that many injuries occur due to angled impact to the head. However, in standard helmet tests the helmet is dropped vertically onto a flat surface. The results are helpful for measuring precise vertical impacts, but inferior for measuring the increases protection against angled impacts.

**SHELL CONSTRUCTION**

FLY Racing helmets are constructed and hand crafted using only the highest quality materials. These materials were selected to meet specific performance standards while providing best in class value. We have developed two distinct shells, a Carbon Matrix Composite and a Polymer shell. Our Carbon Matrix Composite helmet shell is constructed using a blend of carbon and Kevlar® synthetic fibers. As a result, these two fibers work together to deliver the lightest and most robust composite helmet shell on the market. Our Polymer helmet shell utilizes a very high quality thermoplastic polymer called Acrylonitrile Butadiene Styrene. Every polymer helmet shell is meticulously designed to balance weight and strength to provide the very best features and value within its category.

*DuPont and Kevlar are trademarks or registered trademarks of E.I. du Point de Nemours and Company.*

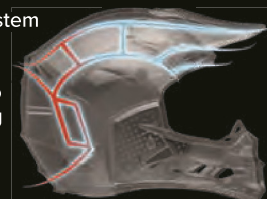

**DUAL - DENSITY EPS**

All FLY Racing dirt helmets use a foam liner called Expanded Polystyrene (EPS). This foam manages the energy produced from an impact. While traditional helmets only utilize one layer of EPS, FLY Racing helmets utilize two. The two layers of EPS are formulated in unique densities independent from one another. These different densities allow the helmet system to more progressively manage energy over a wider range of impacts when compared to traditional helmets with only one of EPS.

**HIGH - FLOW VENTILATION**

We designed our ventilation system with performance and comfort in mind. Vent channels in the EPS connect the intake vents to the exhaust vents, thus creating a complete cooling system. Channeling cool air into the helmet and pushing hot air out. Remove the comfort liner on any FLY Racing helmet to reveal an array of engineered ventilation channels. Our High-Flow ventilation system maximizes airflow to keep you cool and performing at your best.

D

**STANDARD**

- ECE/DOT approved

**CONSTRUCTION**

- MIPS® Brain Protection System: helmet-integrated, low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts
- Carbon Matrix composite shell
- Dual-density EPS (Expanded Polystyrene) liner
- Custom rubber trim with integrated nose guard
- Lightweight machined aluminum visor screws
- Stainless steel rivets and D-rings
- Two shells and Three EPS sizes for a precise fit

**COMFORT / LINER**

- Removable and washable COOLMAX® comfort liner and cheek pads

**VENTILATION**

- All FLY helmets have TFV (True Functional Ventilation). When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents
- Quad-vent above eye port draws air from goggle to reduce fogging

INDEX

**MX-86**

Motocross is all about performance and when performance is your goal, you don't need to have a heavy helmet holding you back. That's why we made the GMAX MX-86. At a mere 2.9lbs, you get a helmet that is ready to help you move to the front of the pack. The SpaSoft Coolmax interior will keep you cool and dry as you roost your friends. The ECE rating gives you the assurance that this helmet has been certified by the leader in "world standard" safety equipment testing.

- **ECE / DOT Approved**
- SpaSoft DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly. Charcoal bamboo fiber keeps odors away by eliminating bacterial growth
- Removable, adjustable, washable Spa Soft Coolmax® interior allows for easy cleaning and custom fitting
- Large eyepoint that accepts large goggles
- Industry leading 13 vents
- High flow mouth vent helps to keep goggles from fogging
- Eyepoint has integrated "roost" guard to help protect rider's nose
- Lightweight shell. Large size only 2.9 lbs.

# VX-R70

The VX-R70 has been tested and refined in endurance races around the world for over five years. From the multi-day Dakar, to the 24 hour Baja 1000, this helmet exceeds the needs of the off-road racing community. This helmet delivers all day comfort. The TCT® composite shell construction and a dual density eps system create a light weight, feature-rich, no-compromise performance mx / off-road helmet. Details include titanium corrosion proof d-Rings, a tool-less quick-change chin vent system, shatter resistant aero-tuned Exolon® visor and a large goggle eye port. Not to mention many of Scorpion EXO® standard liner for moisture management and comfort. Airfit® cheek pad system for a custom snug fit, and aero-tuned ventilation for maximum breathability. This helmet has been engineered, tested and built to meet the highest demands of the serious off-road rider.

- ECE22.05/DOT Approved
- TCT lightweight composite shell w/ dual density EPS liner
- Titanium double D-ring chin strap
- Aero tuned ventilation
- Exolon® shatter resistant visor
- Kwikwick®II washable anti-microbial comfort liner w/ Airfit® inflation system

VX-35

The VX-35 includes features demanded by the world's top off-road riders, yet available at a price anyone can afford. A stylish shell with reduced weight with dual eps liner adds incredible impact protection. The chin vent can be opened and cleaned out without the need for tools. The VX-35 packs other unique features you do not see in most helmets such as a removable peak extender which is useful for blocking mud and sun while riding.

- ECE22.05/DOT Approved
- Advanced LG® polycarbonate shell with dual EPS liner
- Titanium double D-ring chin strap
- Aero tuned ventilation
- Kwikwick® II washable anti-microbial comfort liner w/ Airfit® inflation system

**SUPERTECH M10** 

Alpinestars approach to the creation of the advanced technology in the Supertech M10 draws on its depth of experience from over half a decade of world class innovation across the spectrum of motorsports and especially, its deep rooted commitment to motocross. As with all other categories of technology that Alpinestars has mastered, bringing a new, highly complex, product to fruition requires specialist experience and know-how and a project plan led by the best brains in protection development.

- ECE / DOT
- Carbon shell construction utilizes a highly advanced molding technology with a multi-composite combination
- Three layer composite combination
- Unique, patented, visor release system
- Patented A-Head fitting height and angle adjustment system
- Collarbone protection is an important design feature of the Supertech helmet shell base profile
- Multi-Directional Impact Protection System: MIPS
- Emergency Release System (ERS).
- Hydration system compatibility
- Included: spare visor, helmet bag

**FORMULA WITH AIS** 

**STANDARD:**

- ECE / DOT Approved

**ADAPTIVE IMPACT SYSTEM:**

- 12K carbon fiber shell - Produces an extremely lightweight shell with superior penetration resistance
- Impact Energy Cells - Made of RHEON, the Impact Energy Cells maximize absorption of low speed linear and rotational impacts, reducing forces transmitted to the brain.
- Conehead® EPS Technology - Provides a softer liner whereby the cones help manage or absorb an impact force more efficiently. Six critical zones have been fine tuned for a progressive response to low speed and high speed impacts
- Expanded volume EPS - Strategic areas of the helmet have more impact absorbing EPS, more suspension between your head and the ground

**CONSTRUCTION:**

- EPP chin bar - Expanded polypropylene creates an additional element of impact mitigation
- Clavicle shell relief zone - Creates a soft zone filled with EPS and EPP to aid in reducing clavicle injuries
- Custom molded rubber trim with integrated nose guard
- Lightweight Custom visor screws and titanium alloy D-rings

**WEIGHT:**

- 1290 grams +/-50 (size medium/large)

**COMFORT:**

- Comfort liner and quick release Cheek pads are made of a washable moisture wicking, anti-microbial material

**VENTILATION:**

- True Functional Ventilation (TFV) - When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents

**INCLUDED ACCESSORIES:**

- Premium helmet garage

**OPTIONAL ACCESSORIES:**

- Cold weather breath guard

MD-01S

The ALL NEW MD-01S Modular combines comfort, safety, and convenience in an affordable package. This ECE and DOT approved modular is packed full of great features which includes the new SpaSoft® interior and an integrated LED light helps ensure you're seen by other riders on the trails.

• **ECE / DOT Approved**

- Drop down Hi-Vis Amber sun shade with anti-fog coating
- New SpaSoft DuPont Coolmax® interior keeps you dry and comfortable. Coolmax® wicks moisture away from your body and dries quickly. Charcoal bamboo fiber keeps odors away by eliminating bacterial growth
- Removable, adjustable, washable Spa Soft Coolmax® interior allows for easy cleaning and custom fitting
- Integrated multi-function red LED rear light included
- Easy to use chin bar with push to open mechanism designed for use with gloves on
- Large eyepoint for improved range of vision
- 100% UV400 protection from the anti-fog, maximum seal double lens face shield comes anti-scratch hard coated for a longer lasting clear view
- Built in speaker pockets for communication systems
- Breath guard and chin curtain included
- **Images shown with smoke inner sun shield, comes with amber hi-vis, smoke sold separate**
- Optional wireless brake light kit available P/N **72-3781**
- Optional electric shield available P/N **72-3610**

MD - 04S

MD-04S is based off the very popular GM-44S modular helmet. The MD-04S sports a redesigned jaw and shell while still featuring great functions found on the original GM-44S

- DOT Approved
- Lightweight Poly Alloy shell
- Dupont Coolmax interior for added performance keeps you dry and comfortable. Coolmax wicks moisture away from your body and dries quickly
- Removable, adjustable, washable Coolmax interior and cheek pads allow for custom fitting and easy cleaning
- One hand easy to use chin bar push to open mechanism designed for easy use with any gloves
- UV400 (100% UV protected) state of the art anti-fog, maximum seal dual lens shield
- Anti-scratch hard coated outer lens for a longer lasting clear view
- GMAX D.E.V.S (dual exhaust venting system) top and rear vents reduce fogging and sweating by allowing hot air to escape from the mouth area and the top of the head
- Adjustable mouth vent directs air upward across the inside the shield to help reduce fogging
- Deluxe ear pockets with built in speaker pockets for better fit and comfort
- Breath Box and Chin Curtain included
- Padded chin strap
- Optional electric shield available P/N - **72-0894**
- Optional dual shield smoke available P/N - **72-0892**

GM-11S

M

Shown with optional dual lens smoke shield

- DOT Approved
- Redesigned streamline mouth vent for maximum air flow when in the opened position
- Visor has been aerodynamically designed to allow airflow to pass uninterrupted across the helmet to virtually eliminate helmet-lift at high speeds
- Helmet can be quickly converted from a visor configuration to a visor-less configuration
- Helmet includes clear dual lens shield, cold weather breath box and chin curtain, visor and side plate covers for use when visor is removed to give the helmet a clean full face street look
- Clear shield is completely hidden under the visor and out of line-of-sight, when in the fully raised position
- Large eye port that accepts even the largest goggles
- Shield can be fully raised or lowered when using goggles
- Top, front, and jaw piece vents are a bold design that can be fully opened or closed with a "gloved" hand
- Plush removable washable comfort liner
- Removable washable cheek pads. Different sizes available for purchase to obtain a custom fit
- Integrated speaker pockets in cheek pads will except most communication devices
- Optional electric shield available **P/N - 72-3347**
- Optional dual lens smoke shield **P/N - 72-3346**

DSG GM-54S

The DSG GMAX 54S uses the GMAX Ultimate Flip-Up Jaw Breath Guard System. This system allows the snap in breath guard to remain in the jaw when the jaw section is lifted, thus eliminating the additional hassle of removing your gloves.

**• DOT Approved**

- One hand easy to use chin bar push to open mechanism
- Inner drop down sun shield with anti-fog coating
- State of the art anti-fog, maximum seal double lens shield comes with anti-scratch hard coated outer lens for a longer lasting clear view
- GMAX D.E.V.S. (Dual Exhaust Venting System) adjustable top, side and rear venting reduces fogging and sweating by allowing hot air to escape from the mouth area and top of head
- Adjustable chin vent directs air upward across the inside of the shield to help reduce fogging

- DuPont Coolmax comfort liner and cheek pads move the moisture away from your body and the fabric dries quickly. The added performance keeps you dry and comfortable
- Removable/washable interior and adjustable cheek pads allow for more comfortable sizing
- Deluxe ear pockets for better fit and comfort
- Built in speaker pockets for communication systems
- Snap-in snowmobile chin curtain for added warmth and quietness
- Snap-in maximum seal breath guard reduces fogging
- Optional electric shield available P/N - **72-0896**

INDEX

**DSG GM-76X**

This helmet is extremely comfortable with its new shell design and was made specifically for the hardcore mountain or backcountry rider. The features also work well for the trail rider who likes an open face helmet.

**DOT APPROVED**

- Lightweight thermos-plastic poly alloy shell
- Large eye port that accepts large goggles
- Roomier jaw area for increased comfort
- Eye port trim has integrated roost deflector
- Larger bottom opening that allows for increased comfort when putting on and removing the helmet

**VENTING**

- Industry leading 17 vents
- Maximum air flow is achieved through the shell Styrofoam and comfort liner vents
- Two shell sizes with three Styrofoam sizes for comfortable fitting
- New Material Styrofoam inserts
- Additional support inserts are located between the cheek pads and the shell
- Increased comfort and outside sound reduction

**PLUSH REMOVABLE, WASHABLE LINER AND CHEEK PADS**

- Allows for adjustable fit and comfort
- Removable liner for easy cleaning
- Removable and washable cheek pads
- Special shaped ear pockets and comfort liner for maximum comfort
- High flow venting
- D-ring and retention snap that secures excess chin strap length

**NEW VISOR**

- Fully adjustable
- Flexible and vented visor designed for maximum vision and venting
